

MAKE YOUR OWN ORIGAMI SNOWFLAKE

The only thing that's typical about a snowflake is the lace-like, delicate six-fold symmetry. All snowflakes are different. All snowflakes are beautiful. All snowflakes have this mesmerizing ability to have its viewer look on in incredible awe. Something so small lays bare an infinitesimal, grandness of beauty. Just like you!

Steps:

1. Get a piece of origami paper, or any square paper of any color.
2. Fold the paper to make a triangle. Repeat 1~3 times. The more triangles you fold, the more intricate snowflake you will create!
3. Using scissors, cut out shapes on the edges. You can cut any shape you like!
4. Unfold the paper to reveal your creation.
5. Glue a string on one edge of the paper to hang on your tree!
